**Erythrulose
by Kraeber**

**SMOOTH TANNING
WITHOUT SUN**

- Vegan
- Allergen-free
- Microplastic-free
- Paraben-free
- GMO-free
- No animal testing
- Natrue approved
- Made in Germany

Let the tan in. But harmful substances out.

Sunkissed without sun: Erythrulose by Kraeber for smooth self-tanners. Use it in outstanding drops, serums, sprays and creams. Our Erythrulose is easy to formulate as it is soluble in water and alcohol.

Upgrade your products with our high-quality substances such as hyaluronic acid or chitosan. A perfect match for a significantly enhanced care character.

Erythrulose by Kraeber is ideal for sensitive skin ranges, sun protection products with a high sun protection factor and allergen-free cosmetics. Get in touch with us. We will be happy to assist you.

- For a long-lasting and even tanning result
- Tones evenly and creates a smooth complexion
- Pleasantly flowing honey texture
- Sensitive alternative to self-tanning
